

Serial No. 10,569,900

STATUS OF THE CLAIMS

1. (Currently amended) A window assembly for garage doors,
comprising:

5 A) a transparent panel having an external surface and an internal
surface, said external surface including a coplanarly extending
peripheral flange member making said external surface larger
10 than said internal surface with respective external and internal
peripheral edges, and said peripheral flange member further
including a peripheral underside surface that comes in abutting
contact against the peripheral external surface adjacent to an
opening in a garage panel with cooperative dimensions to
15 permit said internal surface to go pass through said opening;
and

B) means for mounting said transparent panel on said garage
panel.

20 2. (Previously cancelled)

3. (Previously cancelled)

25 4. (Previously added) The window assembly set forth in claim 1
wherein said means for mounting said transparent panel on said
garage panel includes:

C) an external frame assembly mounted on said garage panel
around said external peripheral edge.
